**DUNCAN**

®

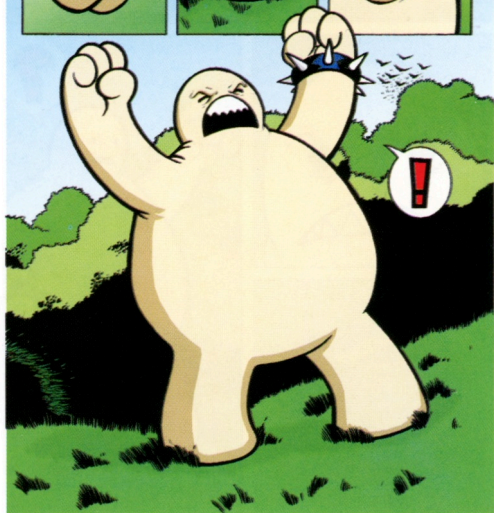

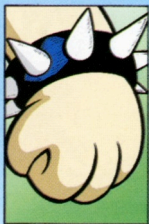

**The Original. World's #1**

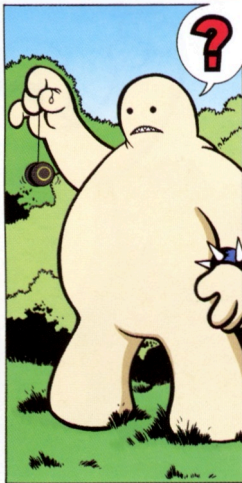

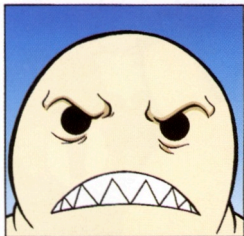

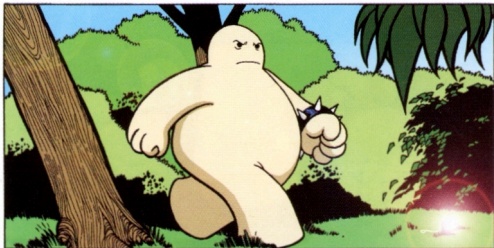

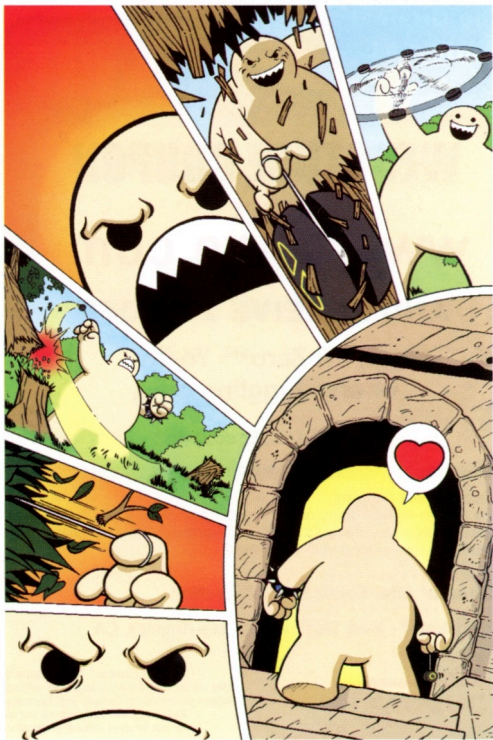

**W**hile there are many conspiracy theories on the creation of Mongu, the fact remains that nobody knows where he came from, nor how long he has been around. However, it is believed that the "symbol speaking" Mongu began his love for Duncan yo-yos like this...

# TRAPEZE

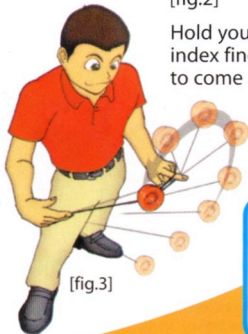

[fig.1]

Hold the yo-yo as though you are throwing a Sleeper, but turn it to the side [fig.1]

[fig.2]

Throw a hard Sleeper, letting the yo-yo cross in front of your body. [fig.2]

[fig.3]

Hold your free hand out, with your index finger extended. Allow the yo-yo to come around your finger and land back on the string. [fig.3]  
Pop the yo-yo up for it to return to your hand.

## TIP

For this, and all string tricks, it is easiest to use a Butterfly™ shaped yo-yo. Practice with an Imperial™ shaped yo-yo to improve your aim! Also, the closer to your finger the yo-yo lands on the string, the better your chances of a successful catch.

# The Original. World's #1.

## Juggling Kits

A complete line of juggling kits for all levels of play! Easy to use, quality products all include a fun, instructional CD-Rom that teaches the basics of juggling patterns. Available are feather light nylon scarves; durable, 4-panel, bean-filled balls; perfectly balanced plastic rings or perfectly balanced, durable, plastic clubs with tape wrapped handles for better grip and catch!

## FH Zero™

"Let Go" with FH Zero, part of Duncan's line of Freehand™ yo-yos using counterweights!

FH Zero features a durable, polycarbonate body and ball-bearing axle. Ideal for all levels of string tricks and includes multiple counterweights!
